

10,000kg AIR CHAIN HOIST C/W E-STOP

Brand: **Toku**

Product Code: **TNC10TWALPE**

10,000kg AIR CHAIN HOIST C/W E-STOP

This Heavy Duty Industrial 10,000kg Double Fall Lifting capacity, pendant control air chain hoist comes with overload protection as standard - an excellent OH&S safety feature and one that cannot be overlooked! As standard the pendant is fitted with an Emergency Stop Button.

Other features of our specific hoists in this range include, upper and lower limit switches, durable cast iron body, low noise level, excellent inching capabilities and automatic failsafe disc brake.

Both Pendant and Cord control models available in lifting heights and control lengths to suit your exacting requirements, for further information or application analysis, please contact us. Below we have listed the reasons why you cannot beat the specific models we handle.

Overload Protection :

This series air hoists comes with overload protection including auto-stop on all units.

Automatic Failsafe Brake :

This unit features an internal disc brake, made from non asbestos material to provide and instant and positive activation of the brake. In the unlikely event that air supply is cut during operation the brake will instantly activate - even with the control left in "open" mode, this is safety at its best!

Excellent Inching Speeds :

Specifications

Air Cons. (under load)	5,000 (l/min) 176.57 (cfm)
Body Material	Cast Iron
Emergency Stop	Yes
Hose Size	25.40 (mm)
Lifting Capacity	10,000 (kg)
Mn. Hook Distance	890 (mm)
No. of Chain Falls	2

Underground Mining	Yes

It is possible to both raise and lower items with precise control, permitting accurate positioning of loads.

All Units are Fully Sealed :

All units are fully sealed, perfect for wash plants, chemical plants and the like.

Durable :

The all steel construction permits our hoists to be operated in areas where many other brands are not suitable. The strong construction and dramatic reduction of external parts susceptible to damage, allow our hoists to withstand the roughest of treatment.

TCR series hoists are used for underground mining, foundries, chemical plants, industrial factories and many other applications, making the TCR series more versatile. The above listed features are some of the reasons why your only choice in lifting technology is our TCR Series Air Hoists!
